Davis Parent Nursery School is a parent cooperative where children and parents learn and grow together. We are affiliated with the Davis Joint Unified School District through the adult education program – Davis Adult & Community Education and we follow the DJUSD calendar. Playgroup is offered for toddlers and parents to attend together. This program is geared to the developmental needs of toddlers and is guided by an experienced teacher. The classroom participation component of the cooperative, affords parents an invaluable opportunity to observe children growing, learning, and playing together, while strengthening the parent-child bond. The parent education classes and association meetings help parents acquire more knowledge about effective parenting skills and gain a better understanding of child development.
